

## Mini DP + USB Audio to HDMI Cable Adapter

MDPA02-MU2H

The Mini DisplayPort and USB Audio to HDMI Cable Adapter is an adapter which can transmit both video signal and from USB port, audio signal to HDMI output display. This adapter can also function without added external power because the computer like MacBook provides enough power through the USB cable. The closeness of both Mini Displayport and USB cable offers easy plug access for the user.

### FEATURES

- Supports up to 1080p HDMI video resolution
- Supports 12-bit per channel (36-bit all channel) color depth
